

## How We Can Help

MassSupport Network provides community outreach and support services to residents of all ages in response to the unprecedented public health crisis, COVID-19.

Our anonymous, confidential, and free program is for individuals (including youth), families, schools, organizations, businesses and communities. We provide emotional support, coping strategies, resources, and up-to-date, factual information.

This Crisis Counseling Program is funded by the Federal Emergency Management Administration (FEMA) and managed in partnership between the Massachusetts Department of Mental Health and Riverside Trauma Center, a program of Riverside Community Care.
